

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Thursday - 20 August 1957

25X1 1. [] telephoned on the [] case and I advised that at the present there is no bill in the Congress although a request to Senator Javits for a bill is in the process of going the rounds in the Department of State. We will attempt to secure more details on the exact status of the case. 25X1

25X1 2. [] advised that William Ballis is now with the University of Michigan and is basically a political scientist. However, he comes highly recommended and apparently could very well fill Senator Jackson's request. They are checking further.

3. Telephoned Tracy Barnes to advise that no action is being planned at this time on H. J. Res. 490 although there are similar resolutions - 491 and 501. In any event, we will maintain a watch to see if any action develops.

25X1 4. [] in Personnel advised that he had contacted [] to say there were no present openings although we would maintain the papers furnished by him and look at it again in 60 days. 25X1

25X1 5. [] called asking if we would check whether or not Congress had passed at any time a law providing that if a country expropriated without compensation the property of U. S. citizens or U. S. corporations that such acts would cut off any foreign aid. Mr. [] is handling this. 25X1

6. Senator Jackson telephoned inquiring if I could bring [] down to meet with him at 10:15 tomorrow morning. This has been arranged. 25X1

25X1 7. Herschel Cleaver, Senate Judiciary Subcommittee on Patents, Copyrights and Trademarks, called to request information on the Agency's policy regarding patents. [] is checking on this.
